5	Reelect Sylvie Grégoire as Director	Mgmt	For	Against
	Voter Rationale: The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.			
6	Reelect June Lee as Director	Mgmt	For	Against
	Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The remuneration committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board.

The remuneration committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. 10	Approve Compensation of Marc de Garidel, CEO	Mgmt	For	Against
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Pay for performance is not aligned. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant.

3	Amend Omnibus Stock Plan	Mgmt	For	For
	*Voter Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): * The plan lacks sufficient positive features (overriding factor) * The three-year average burn rate is excessive * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary) * The plan permits liberal recycling of shares * The plan allows broad discretion to accelerate vesting*			
4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: A vote AGAINST this proposal is warranted, due to quantum and design concerns for the CEO's recently-granted triennial equity awards. Specifically, after fiscal year end, CEO Pichai received triennial equity awards valued at $385 million. The triennial grant is nearly double the size of his last triennial grant and has certain design concerns that are compounded by the award's overall size.

7	Approve Recapitalization Plan for all Stock to Have One-vote per Share	SH	Against	For

14	Report on Improper Usage of External Data to Develop AI Products	SH	Against	For
	Voter Rationale: The potential benefit of additional reporting appears prudent given: - Recent lawsuits the company has had to settle related to privacy and security concerns on personal information; - The company maintains large amounts of data, and it acknowledges the risks related to AI technologies; and - Increased regulatory focus on AI in many of the jurisdictions in which the company operates.

	Voter Rationale: Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. Relative financial metrics are not present in the long-term incentive structure. Variable remuneration should not contain a significant overlap of metrics. Retention or recruitment awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it. Nevertheless, support at this time due to HCM and PFP considerations.

	Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than two external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. We oppose dual class structures with impaired or enhanced voting rights. The company should amend its structure to allow for equal voting rights among shareholders. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board.

Votes FOR these remunerations policies (Items 15 and 16) are warranted but is not without concerns as: * The remuneration structure is disproportionally focusing on short-term but is mitigated by the deferral of the STI. * The performance conditions of the severance package lack stringency. 5.1	Reelect Kuno Sommer as Director and Board Chair	Mgmt	For	Against
	Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness.			
6.1	Appoint Helma Wennemers as Member of the Compensation Committee	Mgmt	For	Against
	Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. The remuneration committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns.			
6.2	Reappoint Nicole Hoetzer as Member of the Compensation Committee	Mgmt	For	Against

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. Relative financial metrics are not present in the long-term incentive structure. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.			
3	Advisory Vote on Say on Pay Frequency	Mgmt	One Year	One Year
	Voter Rationale: We support an annual say on pay frequency.			
4	Ratify PricewaterhouseCoopers LLP as Auditors	Mgmt	For	For
	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
5	Adopt Simple Majority Vote	SH	Against	Against
6	Report on Efforts to Reduce GHG Emissions	SH	Against	For
	Voter Rationale: A vote FOR this proposal is warranted. The company no longer discloses its GHG emissions reporting data and reductions strategies, which it previously used to disclose. As a result, it is not clear how the company is managing its GHG emissions reductions efforts, and the company lags its key industry peers in this regard. Further, the proposal provides sufficient latitude for management to balance implementation of the proposal with the company's core business objectives.			
7	Report on Risks of Deforestation Associated with Private Label Brands	SH	Against	For
	Voter Rationale: A vote FOR this proposal is warranted. BJ s currently does not provide any sustainability or ESG-related disclosures. Assessing and disclosing the deforestation risks associated with BJ s private-label products would provide shareholders with meaningful insight into how the company addresses these risks.

Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than two external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Vote Instruction
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. Variable remuneration should not contain a significant overlap of metrics. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of named executive officers as a normal part of their jobs. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.			
4	Change State of Incorporation from Delaware to Texas	Mgmt	For	Against
	Voter Rationale: A vote AGAINST this proposal is warranted. The reincorporation to Texas would be adverse for shareholder rights, imposing greater hurdles for shareholders seeking accountability for directors and officers of a controlled company at which they lack the ability to act contrary to the wishes of the controlling shareholder, chairman and CEO Michael Dell. The benefits of the reincorporation (principally a reduction in potential "opportunistic and frivolous litigation") are not considered to outweigh the negative impact on shareholder rights.

5	Provide Right to Call a Special Meeting at a 25 Percent Ownership Threshold	Mgmt	For	Against
	Voter Rationale: A vote AGAINST this proposal is warranted. While the ability to call special meetings would improve shareholder rights, this proposal is merely an advisory request to provide a special meeting right with a 25 percent ownership threshold and a one-year holding period, with otherwise undefined terms. The 25 percent ownership threshold is considered relatively high for a company of this size. Moreover, the proposed 10 percent ownership threshold in Item 6 is considered more appropriate and it is recommended that shareholders vote in favor of Item 6.			
6	Provide Right to Call a Special Meeting at a 10 Percent Ownership Threshold	SH	Against	For
	Voter Rationale: A vote FOR this proposal is warranted as the ability to call special meetings would improve shareholder rights. The proposed 10 percent ownership threshold is considered more appropriate for a company of this size relative to the 25 percent ownership threshold proposed by management in Item 5.

7	Approve Grant of Options and Issuance of Shares Under the Hong Leong Asia Share Option Scheme 2000	Mgmt	For	Against
	Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. Directors eligible to participate in the Scheme should not involve in its administration; such dual roles raise conflict of interest concerns. Share options should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable. Options should be issued at no less than market price, except for an all-employee plan where the discount should not exceed 20% on a fixed date. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. This plan could lead to excessive dilution.

5	Require Independent Board Chair	SH	Against	For
	Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of managements performance.			
6	Report on Alignment of Lobbying Activities with Stated Public Policy Positions	SH	Against	For
	Voter Rationale: A vote FOR this proposal is warranted as a report on the company's alignment of lobbying activities with the company's values and priorities would enable shareholders to have a more comprehensive understanding of how the company oversees and manages risks related to its political activities.			
7	Report on Expected Return on Investment of Company's Sustainability Investments	SH	Against	Against
	Voter Rationale: A vote AGAINST this resolution is warranted. Further, the proponent has not provided clear evidence that performance concerns exist relating to the company s current approach.

1	Appoint Three Individuals to Investigate Status of Operations and Property of the Company including Potential Failures of Risk Management, Internal Controls and Board Oversight related to Palm Oil, Paper and Pulp Supply Chains	SH	Against	For
	Voter Rationale: A vote FOR this shareholder proposal is recommended because: - The proponent has raised serious, valid concerns about the materiality of the supply chain risks, the presence of regulatory enforcement exposure, and unresolved transparency and governance concerns. - The proposed shareholder-mandated independent investigation seems preferable to a company-commissioned investigation, as it is more likely to restore investor confidence in the company oversight of its supply chain risks. - The shareholder-requested investigation does not appear to be overly burdensome, and the requestor would compensate the investigators for any portion of investigation costs that exceeds reasonable compensation to be borne by the company.

	Voter Rationale: Any increase in the size of awards under the short-term/long-term incentive scheme(s) should be accompanied by a corresponding increase in performance expectations. Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. The remuneration report does not articulate how executives performed against historic performance targets. The board should articulate how bonus payments reflect prior year performance, as well as outlining forward-looking targets that underpin long-term incentive plans. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

4.1	Elect Chin-Kung Lee, with Shareholder No. 2, as Non-independent Director	Mgmt	For	For
	Voter Rationale: The board may wish to consider strengthening its succession planning practices and processes to ensure women are similarly considered. Given the recent updates to the board, we will keep this matter under review. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: At this time, CEO pay relative to peer performance is misaligned. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of named executive officers as a normal part of their jobs.			
4	Require Independent Board Chair	SH	Against	For
	Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of management's performance.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. At this time, CEO pay relative to peer performance is misaligned. Relative financial metrics are not present in the long-term incentive structure. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of named executive officers as a normal part of their jobs. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

3.1	Elect WEN-YUAN WONG, a Representative of NAN YA PLASTICS CORP. as Non-independent Director	Mgmt	For	Against
	Voter Rationale: Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time.

3.3	Elect MING-JEN TZOU, a Representative of NAN YA PLASTICS CORP. as Non-independent Director	Mgmt	For	Against
	Voter Rationale: The board may wish to consider strengthening its succession planning practices and processes to ensure women are similarly considered. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than two external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

*Voter Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: * The plan lacks sufficient positive features (overriding factor); * The plan cost is excessive; * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary); * The plan permits liberal recycling of shares; and * The plan allows broad discretion to accelerate vesting.*

2	Ratify Ernst & Young LLP as Auditors	Mgmt	For	For
	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: The remuneration committee should not allow vesting of incentive awards for substantially below median performance. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.			
4	Provide Right to Act by Written Consent	SH	Against	For
	Voter Rationale: Supporting better corporate governance practices. Investors should have the opportunity to put resolutions to all shareholders, either in a company meeting or by expressing their intentions through the mail.			
5	Report on Return on Investment of Company's Environmental, Social, and Governance Investments	SH	Against	Against
	Voter Rationale: A vote AGAINST this proposal is warranted. Netflix provides shareholders with sufficient information on how it assesses the risks and opportunities associated with its ESG initiatives. Given this, it is not clear that the requested report would provide significant additional value while diverting company resources.			
6	Report on Risks Related to Company's Branding, Marketing, and Public Policy Positions	SH	Against	Against
	Voter Rationale: At this time, we believe management and the board are adequately considering attendant material risks.

7	Provide for Cumulative Voting	SH	Against	Against
	Voter Rationale: In practice, cumulative voting rarely enhances the rights of minority shareholders and risks that the board will not achieve an appropriate balance of independence and objectivity.

	Voter Rationale: The nomination committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s).

On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

Disclosure should include all state and local donations including support for 527 organizations and ballot initiatives. In addition, the company should identify key relationships with trade associations that engage in lobbying on the corporation's behalf, as well as describe its policies and processes for giving. We ask that the board provide ultimate oversight for political donations.

2	Ratify KPMG LLP as Auditors	Mgmt	For	For
	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. The remuneration committee should not allow vesting of incentive awards for substantially below median performance.			
4	Require Independent Board Chair	SH	Against	For
	Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of managements performance.			
5	Report on Effectiveness of Human Rights Policies and Oversight	SH	Against	For
	Voter Rationale: The company faces risks related to human rights in its global operations. Good practice includes developing a clear human rights policy or code of practice, along with a narrative on how impacts are monitored and effectively mitigated.			
6	Report on Animal Welfare in Supply Chain	SH	Against	For
	Voter Rationale: A vote FOR this proposal is warranted as additional disclosure would help strengthen the company's stated animal welfare policies and practices. In addition, the disclosure would enable shareholders to better assess the effectiveness of the company's animal welfare efforts and its management and oversight of related risks within its supply chain.

1.7	Elect Director Bernt Iversen, II	Mgmt	For	Against
	Voter Rationale: AGAINST votes are warranted for Tracy Britt Cool for failing to attend at least 75 percent of her total board and committee meetings held during the fiscal year under review without disclosing the reason for the absences. AGAINST votes are warranted for compensation committee members Bernt Iversen II (chair), Sean Hennessy, and Robert Henderson for the problematic performance-based awards granted to non-employee directors. Votes FOR the remaining director nominees are warranted.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Relative financial metrics are not present in the long-term incentive structure. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

1.1	Elect Jeronimo Antunes as Director Appointed by Preferred Shareholder	SH	None	Abstain
	Voter Rationale: The company disclosed competing nominees for the single board seat reserved for a representative of the minority preferred shareholders. Both independent candidates included in this meeting's agenda appear to be well-qualified for the position. Given that shareholders can support only one candidate, an ABSTAIN vote is recommended for Item 1.1. 4	Approve Discharge of Supervisory Board for Fiscal Year 2025	Mgmt	For	Against
	Voter Rationale: The company should reduce director terms and, ideally, introduce annual re-elections, in order to facilitate a more dynamic board refreshment process.			
5	Ratify BDO AG as Auditors and as Auditors for the Sustainability Reporting for Fiscal Year 2026	Mgmt	For	Against
	Voter Rationale: Auditors should undertake non-audit work in exceptional circumstances only. Any non-audit fees paid to the auditor should be clearly disclosed, justified and not exceed audit fees. Large non-audit fees could compromise objectivity of the audit.			
6	Approve Conversion of Bearer Shares into Registered Shares	Mgmt	For	For
7	Approve Creation of EUR 9 Million Pool of Authorized Capital with or without Exclusion of Preemptive Rights	Mgmt	For	Against
	Voter Rationale: Any increase in capital greater than 50% of the issued share capital with pre-emptive rights should be undertaken in exceptional circumstances only and fully justified by the company. Any increase in capital of greater than 10% without pre-emption rights should be undertaken in exceptional circumstances only and fully justified by the company.			
8	Approve Remuneration of Supervisory Board	Mgmt	For	Against
	Voter Rationale: Variable remuneration and equity incentives should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable. The level of remuneration for the chair appears somewhat elevated in light of the company's size and market practice, and considering the company's limited rationale.

The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

12	Approve Long Term Incentive Plan Phantom Stock Option	Mgmt	For	Against

Voter Rationale: The introduction of this plan would further increase both the complexity of the remuneration framework and the already sizeable payout opportunity of the CEO. In addition, the timing of the plan is questionable, as it is being introduced against the backdrop of the ongoing public exchange and tender offer for the shares of TIM SpA.Substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards

1	Approve Remuneration Report	Mgmt	For	Abstain
	Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. The remuneration report does not articulate how executives performed against historic performance targets. The board should articulate how bonus payments reflect prior year performance, as well as outlining forward-looking targets that underpin long-term incentive plans. The remuneration committee should consider deferring a proportion of the annual cash bonus into shares which would be more effective in retaining executives and ensuring that the annual and long-term performance objectives are aligned.

11.i)	Reelect Marcus Wallenberg as Director	Mgmt	For	Against
	Voter Rationale: Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. The board may wish to consider strengthening its succession planning practices and processes to ensure women are similarly considered. We oppose dual class structures with impaired or enhanced voting rights. The company should amend its structure to allow for equal voting rights among shareholders.

2	Amend Omnibus Stock Plan	Mgmt	For	For
	Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

5	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. At this time, CEO pay relative to peer performance is misaligned. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it. Nevertheless, we believe compensation committee has built a thoughtful plan that incentivizes outperformance and has adequately responded to investor critique from last year (76% support for say-on-pay)			
6	Provide for Cumulative Voting	SH	Against	Against
	Voter Rationale: In practice, cumulative voting rarely enhances the rights of minority shareholders and risks that the board will not achieve an appropriate balance of independence and objectivity.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: At this time, CEO pay relative to peer performance is misaligned. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

9a	Approve Remuneration of Directors in the Amount of USD 1.9 Million	Mgmt	For	Against
	Voter Rationale: A vote AGAINST this resolution is warranted because the requested fees remain at a high level compared to market practice and no compelling explanation is provided.			
9b	Approve Fixed Remuneration of Executive Committee in the Amount of USD 3.6 Million for Fiscal Year 2027	Mgmt	For	Against
	*Voter Rationale: Fixed remuneration (Item 9b) A vote AGAINST this proposal is warranted because the board has requested an increased pay envelope, which would imply significant flexibility on a per-person basis, and the supporting rationale is not considered compelling. Variable remuneration (Item 9c) A vote AGAINST this proposal is warranted because: * The requested amount, particularly the portion reserved for equity grants, appears excessive within market context. * The remuneration report lacks sufficient detail regarding the terms and parameters of the incentive plans, and the company has not provided shareholders with a non-binding resolution on the remuneration report.*

1	Approve Remuneration Report	Mgmt	For	Against
	Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. The remuneration report does not articulate how executives performed against historic performance targets. The board should articulate how bonus payments reflect prior year performance, as well as outlining forward-looking targets that underpin long-term incentive plans. The remuneration committee should consider deferring a proportion of the annual cash bonus into shares which would be more effective in retaining executives and ensuring that the annual and long-term performance objectives are aligned. The long-term incentive plan is linked to a single performance target. Companies should base vesting levels on multiple performance criteria that reflect both absolute and relative financial metrics rather than a single performance criterion, and should stagger vesting to reward progressively better performance. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

	Voter Rationale: Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than two external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

8.2.4	Elect Herbert Haas to the Supervisory Board of Talanx SE	Mgmt	For	Against
	Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this directors membership could hamper the committees impartiality and effectiveness. The remuneration committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. The nomination committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. The board may wish to consider strengthening its succession planning practices and processes to ensure women are similarly considered. Given the recent updates to the board, we will keep this matter under review.

1.1	Accept Financial Statements and Statutory Reports	Mgmt	For	For
	Voter Rationale: A vote FOR is warranted because the company's financial statements and the proposed treatment of net losses do not raise major concerns. Support for the approval of the financial statements is however qualified due to the shareholder meeting format, which will not allow shareholders to actively participate in the AGM and interact with the management during the meeting.			
1.2	Approve Treatment of Net Loss	Mgmt	For	For
2.1	Approve Remuneration Policy	Mgmt	For	Against
	Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Any increase in the size of awards under the short-term/long-term incentive scheme(s) should be accompanied by a corresponding increase in performance expectations. Substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards.

4	Adopt Staff Share Option Scheme 2026	Mgmt	For	Against
	Voter Rationale: Directors eligible to participate in the Scheme should not involve in its administration; such dual roles raise conflict of interest concerns. 	Voter Rationale: Relative financial metrics are not present in the long-term incentive structure. At this time, CEO pay relative to peer performance is misaligned. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

4	Establish a Board Committee on Sustainability to Assess ROI of Sustainability Initiatives	SH	Against	Against
	Voter Rationale: A vote AGAINST this resolution is warranted, as the company's existing board oversight and risk management framework appear adequate to allow for proper oversight of issues related to sustainability and, absent significant related controversies or performance concerns, the board is generally given latitude to determine its committee structure.			
5	Issue Report Evaluating Company's Plastic Packaging Policies	SH	Against	Against
	Voter Rationale: A vote AGAINST this proposal is warranted. Coca-Cola s packaging strategy is a significant factor in determining the success of its business and falls under ordinary business operations. The request of the proposal is overly prescriptive and attempts to micromanage the company s business. Further, there are no significant related controversies that would warrant publishing the requested report, which would be costly and unduly burdensome for the company.			
6	Report on Current Diversity, Equity and Inclusion Efforts	SH	Against	For
	Voter Rationale: The company should disclose its demographic workforce data as per the EEO-1 requirement. This will help to increase transparency and aid shareholders in assessing the effectiveness of the company's stated efforts to address related human capital material risks and opportunities.			
7	Report on Risks Related to Chemical Additives in Company's Food and Beverage Products	SH	Against	For
	Voter Rationale: Product safety can present a significant risk to shareholder value. The company should report publicly on its strategy for ensuring product quality and safety throughout its supply chain, as well as systems for responding to product recalls.			
8	Report on Plans to Improve Sustainability Disclosure	SH	Against	For
	Voter Rationale: Enhanced disclosure of social and environmental risks and opportunities for businesses is important. Although the company has taken steps to disclose its approach, its reporting is not of a sufficiently high quality. Best practice is to provide balanced, detailed, data-driven reports that permit both evaluation of the company's own performance and comparison of its performance against peers.

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	Voter Rationale: At this time, CEO pay relative to peer performance is misaligned. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. Nevertheless, we are supportive at this time provided mitigating circumstances.			
3	Ratify PricewaterhouseCoopers LLP as Auditors	Mgmt	For	For
	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
4	Reduce Ownership Threshold for Shareholders to Call Special Meeting	SH	Against	For
	Voter Rationale: Holders of significant share capital should be entitled to call a special meeting. A total holding requirement of 10% is a suitable threshold to prevent abuse.			
5	Report on Risks Related to the Company's Charitable Contributions *Withdrawn Resolution*	SH		
6	Report Annually on Energy Supply Ratio	SH	Against	For
	Voter Rationale: A vote FOR the resolution asking for the company to publish its clean energy financing ratio is warranted as it will give shareholders increased information on how the bank is progressing on its goal to align its financing activities with a net zero by 2050 pathway, its fossil fuel policy, and actions regarding corporate responsibility.			
7	Report on Lobbying Payments and Policy	SH	Against	For
	Voter Rationale: Comprehensive, aggregate disclosure on political spending is best practice. Disclosure should include all state and local donations including support for 527 organizations and ballot initiatives. In addition, the company should identify key relationships with trade associations that engage in lobbying on the corporation's behalf, as well as describe its policies and processes for giving. We ask that the board provide ultimate oversight for political donations.

3	Amend Articles to Add Provisions Concerning Management Based on CSR (Withdrawal from Nuclear Power Generation Business)	SH	Against	Against
	Voter Rationale: The option of nuclear power should not be inflexibly ruled out, as the possibility remains that safety and financial findings may show it to be a desirable part of the power generation mix. - This is a matter properly left to management judgment under proper board oversight.			
4	Amend Articles to Add Provisions Concerning Management Based on CSR (Decarbonization Plan)	SH	Against	Against
	Voter Rationale: It is largely redundant to the company's existing net-zero commitment and does not provide incremental value, with such strategic matters best left to management discretion rather than being embedded in the articles.			
5	Amend Articles to Add Provisions Concerning Management Based on CSR (Information Disclosure and Dialogue)	SH	Against	Against

7	Amend Articles to Add Provisions Concerning Management Based on CSR (Gender Diversity)	SH	Against	For
	Voter Rationale: Strengthening non-discrimination policies enhances companies' ability to recruit from the widest talent pool and may improve employee retention and performance. Expanded policies should enhance a company's reputation as a strong employer.			
8	Amend Articles to Keep Shareholder Meeting Minutes and Disclose Them to Public	SH	Against	For
	Voter Rationale: We support the proposal as enhanced disclosure of detailed shareholder meeting minutes would improve transparency and allow investors to better assess board deliberations, including key discussions and voting outcomes. This is particularly relevant for overseas shareholders, who rely on accessible disclosure to engage effectively. Given that the company already prepares meeting minutes, incremental disclosure via its website would not impose a significant additional burden.

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of named executive officers as a normal part of their jobs. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

	Voter Rationale: Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board.			
13b	Reelect Gunilla Fransson as Director	Mgmt	For	Against
	Voter Rationale: We voted against because we do not consider this director independent and yet sits on the audit committee. Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. Relative financial metrics are not present in the long-term incentive structure. 	Voter Rationale: Relative financial metrics are not present in the long-term incentive structure. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

4.1	Elect ARTHUR YU-CHENG CHIAO, with SHAREHOLDER NO.84, as Non-Independent Director	Mgmt	For	For
	Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than two external directorships to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.

1a	Elect Director Wayne A.I. Frederick	Mgmt	For	Against
	Voter Rationale: A non-independent director sits on the Audit Committee, which we expect to be fully independent, as non-independent directors could hamper the committees impartiality and effectiveness. We are holding the incumbent Nominating Committee Chair/longest-serving Nominating Committee member accountable. Directors are expected to attend all board meetings. Attendance is crucial for making valuable contributions to the board and fulfilling fiduciary duties.

	Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.			
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	Voter Rationale: Long-term incentive awards should not be allowed to vest within 3 years since the date of grant. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Relative financial metrics are not present in the long-term incentive structure. Variable remuneration should not contain a significant overlap of metrics. Retention or recruitment awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time.			
4	Amend Omnibus Stock Plan	Mgmt	For	For
	Voter Rationale: Incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Nonetheless, we are supportive at this time.			
5	Amend Qualified Employee Stock Purchase Plan	Mgmt	For	For

6	Report on Employee Retention Rates by Demographic Category	SH	Against	For
	Voter Rationale: The company should disclose its demographic workforce data as per the EEO-1 requirement. 7	Disclosure of Voting Results Based on Class of Shares	SH	Against	Against

	ELECT NON-INDEPENDENT DIRECTORS VIA CUMULATIVE VOTING	Mgmt		
10.1	Elect Tang Yuxiang as Director	Mgmt	For	For
	Voter Rationale: The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.			
10.2	Elect Li Panpan as Director	Mgmt	For	For
	Voter Rationale: The nomination committee should be independent and this directors membership could hamper the committees impartiality and effectiveness. The board may wish to consider strengthening its succession planning practices and processes to ensure women are similarly considered.

6	Authorize Board to Fix Remuneration of Directors and Senior Management Officers	Mgmt	For	For
7	Amend 2021 H Share Award and Trust Scheme	Mgmt	For	Against
	Voter Rationale: This plan could lead to excessive dilution. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance. Directors eligible to participate in the Scheme should not involve in its administration; such dual roles raise conflict of interest concerns. Variable remuneration and equity incentives should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable.			
8	Approve Grant of General Mandate to the Board to Issue or Otherwise Deal with Ordinary Shares	Mgmt	For	Against
