Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. At this time, we believe the director's role at Icahn Enterprise is not equivalent to a NEO role, thus reducing the above concern.

Voter Rationale: The nominee serves as Nominating Committee Chair and has long tenure. Long tenured directors could lack independence from the company and we expect key committee Chairs to be independent. Company fails to meet our Climate VAM Net Zero Model expectations. In particular, we note Intuitive Surgical, Inc. has no reduction targets. Climate change presents an ongoing and serious long-term risk that can impact shareholder value. Companies should improve their public disclosure and strategy setting in relation to climate change.

2.1	Elect Director Robert M. Friedland	Mgmt	For	For

2.2	Elect Director Yufeng (Miles) Sun	Mgmt	For	For
2.3	Elect Director Tadeu Carneiro	Mgmt	For	Withhold
<i>Voter Rationale: While directors are charged with making decisions regarding executive compensation, an advisory say on pay vote is the best method for all shareholders to provide their views on those decisions. The governance committee should put a say on pay on the AGM agenda as is now common practice in Canada. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 30% of the board. Given the recent updates to the board, we will keep this matter under review.</i>

3	Approve PricewaterhouseCoopers LLP as Auditors and Authorize Board to Fix Their Remuneration	Mgmt	For	For
4	Amend Equity Incentive Plan	Mgmt	For	Against
<p><i>Voter Rationale: Incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Share options should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable.</i></p>				
5	Amend Deferred Share Unit Plan	Mgmt	For	Against
<p><i>Voter Rationale: While the potential dilution (4 percent) is acceptable, vote AGAINST this Deferred Share Unit Plan as:- Non-employee directors participate in the plan on a discretionary basis; and- The plan's detailed amendment provision does not adequately restrict the ability of the board to amend the plan without shareholder approval.</i></p>				
6	Approve Extension of Option Term	Mgmt	For	Against
<p><i>Voter Rationale: Vote AGAINST this proposal as the extension of option terms is akin to repricing in that it undermines the incentive value that options were originally intended to provide.</i></p>

<i>Voter Rationale: The audit committee should be at least three-fourths independent and companies should strive to make them fully independent.</i>				
2	Amend Articles to Abolish the Post of Executive Chairman	SH	Against	Against
<i>Voter Rationale: While the company appears to have a track record of appointing individuals from the Bank of Japan, Ministry of Finance, and Tokyo Stock Exchange to senior positions, the company has recently switched from a Kansayaku board structure to a three-committee structure with a formal nominating committee and has put in place an appropriate nomination process. Given this, we will not support this proposal at this time.</i>

<p><i>Voter Rationale: Severance payments should not exceed two years pay. Larger severance packages should be subject to a separate shareholder approval. The majority of annual bonus incentives should be quantitative. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns.</i></p>

<p><i>Voter Rationale: The company should report to investors on efforts to widen its executive and board candidate pool. The board should draw on the richest possible combination of talents and perspectives. In addition, board charters should affirm the value of individual diversity of all kinds including gender, ethnic origin, nationality, professional background, and many other factors that may enhance the boards performance.</i></p>

Reducing the strike price of options already granted after the stock price has fallen undermines any employee incentive strategy and is not aligned with the interests of shareholders. <p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s).</i></p>

7	Reelect Marie-Josée Kravis as Director	Mgmt	For	For
<p><i>Voter Rationale: The boards independence is impacted by tenure. A few of the directors have a tenure of 12 or greater. This was discussed with IR when we engaged with them in December 22 and IR indicated that there could be board refreshment. We have seen Diego Della Valle, with a notable tenure, come off the board with a new member up for election this AGM. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns.</i></p>

11	Renew Appointment of Lord Powell of Bayswater as Censor	Mgmt	For	Against
	<i>Voter Rationale: Non-voting directors, or censors, can have considerable influence on the board whereas they bear no legal liability toward shareholders. Censors should be appointed only in the event of exceptional and temporary circumstances and if their presence adds significant value in terms of board composition and board functioning.</i>			
12	Appoint Diego Della Valle as Censor	Mgmt	For	Against
	<i>Voter Rationale: Votes AGAINST this items are warranted because the company has failed to provide an adequate rationale on the proposed nomination. In addition the proposed censor has just come off the board after a significant tenure.</i>			
13	Approve Compensation Report of Corporate Officers	Mgmt	For	For
	<i>Voter Rationale: Although the remuneration structure of LVMH does not fully align with market best practices the aim of remuneration is the alignment of executive with shareholders. Given Mr B Arnault and family own 48% of LVMH and the shareholding locked in of 30 years. This provides strong alignment between the CEO/Chair and shareholders as discussed in engagement with IR. In addition to this pay for performance is in line. Given long term alignment and pay for performance alignment a vote FOR pay items is warranted.</i>			
14	Approve Compensation of Bernard Arnault, Chairman and CEO	Mgmt	For	For
	<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. <p><i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. The remuneration committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be independent and this directors membership could hamper the committees impartiality and effectiveness. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

5	Amend Articles to Disclose Greenhouse Gas Emission Reduction Targets Aligned with Goals of Paris Agreement	SH	Against	For
<i>Voter Rationale: A vote FOR this shareholder proposal is recommended because:- The company's net zero 2050 commitment covers its scope 1, 2, and 3 category 15 emission that account for up to 6 percent of its total emissions. The request under Item 5 is to set and disclose a business plan with short term and mid-term greenhouse gas emission targets aligned with the goals of the Paris agreement. While the newly disclosure of the scope 3 (cat 11) GHG emissions is positively noted, the absence of any detailed information about the plan with regards to the strategy addressing the company's scope 3 category 11 (use of sold products) that represent approx. 94 percent of the company's total emissions raises concerns about the credibility of the company's net zero commitment.</i>				
6	Amend Articles to Disclose Evaluation concerning Consistency between Capital Expenditures and Net Zero Greenhouse Gas Emissions by 2050 Commitment	SH	Against	For
<i>Voter Rationale: A vote FOR this shareholder proposal is recommended because:- The capital expenditure disclosure requested under Item 6 would help investors understand the financial risks the company is facing in a decarbonized economy where demand in oil & gas will progressively decrease. In addition, the proposal wording is deemed sufficiently accurate without being too prescriptive and should therefore not lead the company to breach any trade secrets while the requested annual reporting effort does not appear overly burdensome.</i>

2	Amend Articles to Disclose Transition Plan to Align Lending and Investment Portfolios with Goals of Paris Agreement	SH	Against	Against
<i>Voter Rationale: The proposal wording is broad, and it is not clear from this exactly what the expectations are of the filers, which the bank does not already commit to or implement. The company already has a transition plan, which includes financed emissions targets for thermal coal mining, power generation, and upstream oil and gas. The company also has fossil fuel financing restrictions in place, which appear largely in line with the goals of the Paris Agreement and 1.5C. While there is room to improve this transition plan, to enhance alignment with 1.5C, the company already provides sufficient disclosure to understand how they are seeking to manage climate risks.</i>

	<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The company should reduce director terms and, ideally, introduce annual re-elections, in order to facilitate a more dynamic board refreshment process. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

The company should reduce director terms and, ideally, introduce annual re-elections, in order to facilitate a more dynamic board refreshment process.</i>			
15	Approve Remuneration Report	Mgmt	For	Against
	<i>Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. Equity incentives should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.</i>			
16	Amend Terms of Remuneration of Management Board Members	Mgmt	For	Against
	<i>Voter Rationale: A vote AGAINST the proposed resolution is warranted because the proposal represents an increase in guaranteed variable remuneration paid to the members of the company's management board. Guaranteed variable awards are not in line with the standard market practices.</i>

Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns.

Voter Rationale: This plan could lead to excessive dilution. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. The remuneration committee should not allow vesting of incentive awards for substantially below median performance.

<i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. The nominee serves as Nominating Committee Chair and has long tenure. Long tenured directors could lack independence from the company and we expect key committee Chairs to be independent.</i>				
1d	Elect Director Ted Sarandos	Mgmt	For	For
2	Ratify Ernst & Young LLP as Auditors	Mgmt	For	For
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: While we appreciate that the company has engaged with shareholders and made changes to executive compensation following the say on pay vote last year that received only 27% support, we continue to have concerns. All NEOs receive only base salary and options, with each employee given the ability to allocate their pay as they choose between salary and options. While changes have been made so that, starting in FY23, the co-CEOs and executive chair will have a cap on cash compensation of 50%, we expect companies to have a majority of equity awards tied to performance and do not consider options to be performance based equity grants. Further, the updates to cash vs option compensation are not extended to all NEOs, and as such we remained concerned regarding whether overall NEO compensation is sufficiently tied to the long-term shareholder experience. Compounding this, the stock option vesting period is 1 year, further undermining the tie to long-term company performance.</i>

6	Adopt Policy Prohibiting Directors from Simultaneously Sitting on the Board of Directors of Any Other Company	SH	Against	Against
<i>Voter Rationale: There are no current concerns with overboarding at Netflix and the proponent has not raised a compelling argument for adopting a novel and potentially disruptive policy.</i>				
7	Report on Climate Risk in Retirement Plan Options	SH	Against	Against
<i>Voter Rationale: The company's retirement plan is managed by a third-party fiduciary and employees are offered an option for investing more responsibly.</i>				
8	Adopt and Disclose a Freedom of Association and Collective Bargaining Policy	SH	Against	For
<i>Voter Rationale: Many of the company's peers disclose policies related to freedom of association and collective bargaining. Some of the company's employees are pushing to unionize, and the company has received media attention over charges related to worker treatment and company culture. The criteria laid out in the proposed policy may benefit shareholders by improving the company's management of freedom of association and collective bargaining issues, while still offering the company enough flexibility to constructively engage on these issues.</i>

Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Directors are expected to attend all board meetings. Attendance is crucial for making valuable contributions to the board and fulfilling fiduciary duties. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board.

Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

<p><i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. The nomination committee should be independent and this directors membership could hamper the committees impartiality and effectiveness. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

<p><i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. For companies without an independent chairman, a senior independent director should be appointed to serve as an additional safeguard and point of communication for shareholders. <p><i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Retention or recruitment awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

<i>Voter Rationale: Concern is raised around the levels of disclosure in the LTIP and STIP. The STIP shows selective disclosure across the threshold and maximum metrics with no disclosure around the personal goals with a weighting of 25% and a pay out of 100%. 6	Adopt GHG Emissions Reduction Targets Aligned with the Paris Agreement Goal	SH	Against	For
<i>Voter Rationale: We are supportive of requests to enhance disclosure and transparency concerning climate risk so long as the resolution does not directly circumvent management discretion or seek to entirely redefine the company's existing business strategy. To meet the ambition of the Paris Agreement and avoid massive risk to shareholder value, corporations should demonstrate the nexus between their climate aspirations and business strategy via disclosure of credible Paris- or 1.5 degree-aligned emissions reduction targets. Current disclosure does not sufficiently provide investors such information.</i>

Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

Voter Rationale: The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. 2	Elect Directors (Bundled)	Mgmt	For	Against
<i>Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this directors membership could hamper the committees impartiality and effectiveness. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board.</i>

2	Amend Omnibus Stock Plan	Mgmt	For	Against
<i>Voter Rationale: Incentive plan features that allow for loans to exercise options are inconsistent with good practice and should be eliminated. This plan could lead to excessive dilution. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. The remuneration committee should not allow vesting of incentive awards for substantially below median performance.</i>

<p><i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.</i></p>

<p><i>Voter Rationale: In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board.</i></p>

<i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Directors are expected to attend all board meetings. Attendance is crucial for making valuable contributions to the board and fulfilling fiduciary duties. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The nomination committee should be majority independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. <p><i>Voter Rationale: Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. The board should submit directors for re-election individually, rather than as a single slate to enable shareholders to hold directors individually accountable for their performance.</i></p>

The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

<p><i>Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Executive pay is not in line with company performance. The compensation committee should do more to respond to best practices in pay that help establish compensation packages that reward strong performance and build shareholder value over time. The board approved a repricing transaction without prior shareholder approval in June 2022, which constitutes a problematic pay practice.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
	<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it. A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice.</i>

<p><i>Voter Rationale: This company received a high level of dissent at the 2022 AGM, with the say on pay receiving approximately 35.3% support. While the company has disclosed its engagement efforts and shareholder feedback following the vote, we continue to have concerns regarding the structure of the executive compensation. This includes the significant overlap of metrics between the short and long term incentive plans, potentially rewarding executives twice for the same performance, the one-year performance period under the LTIP that may not sufficiently align executives with long-term shareholders, the in-flight changes made to the NNACV performance target that undermines the link between shareholder experience and executive compensation, and the size of the LTIP grants to the CEO on the back of a mega grant that was awarded in the year prior.</i></p>

<p><i>Voter Rationale: While we acknowledge the company has undergone significant board refreshment in an effort to improve governance, we have continued concerns regarding the execution of strategy. Given the long-term track record of the incumbent executives, we are not convinced the changes made are sufficient to provide effective oversight. The dissident is seeking a minority position on the board, and we feel that a 20% representation by the dissident nominees should be sufficient to provide more robust oversight on strategy and execution. 	<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

<p><i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 30% of the board. While directors are charged with making decisions regarding executive compensation, an advisory say on pay vote is the best method for all shareholders to provide their views on those decisions. The governance committee should put a say on pay on the AGM agenda as is now common practice in Canada. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process.</i></p>

Voter Rationale: The proposal wording is broad and it is not clear from this exactly what the expectations are of the filers, which the bank does not already commit to or implement. The company have implement interim 2030 financed emissions targets covering 6 sectors, with more to follow by June 2024, in line with the NZBA timeline. The company note that they re-publish their ongoing activities into a clearer transition plan by the end of FY23, which will include an assessment of client transition risks, more information on their client engagement, and how they assess the credibility of client transition plans. There is room for improvement in their management of climate risks, but in general it appears that they are already doing or have committed to a lot of what would be expected by the proponents.

<p><i>Voter Rationale: The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board. For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 30% of the board. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The audit committee should be fully independent and this directors membership could hamper the committees impartiality and effectiveness. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. Severance payments should not exceed two times annual pay. Larger severance packages should be subject to a separate shareholder approval. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. 4.3	Approve Variable Remuneration of Executive Directors in the Amount of CHF 7 Million	Mgmt	For	Against
<p><i>Voter Rationale: The remuneration policy should provide details of the rules governing the award of the annual and long-term variable incentives, any exceptional components and termination arrangements. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Options should be issued at no less than market price, except for an all-employee plan where the discount should not exceed 20% on a fixed date. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

5.7	Reelect Nayla Hayek as Board Chair	Mgmt	For	Against
<p><i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 40% of the board. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

6.2	Reappoint Ernst Tanner as Member of the Compensation Committee	Mgmt	For	Against
<i>Voter Rationale: The remuneration committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns.</i>

2	Do You Wish to Request Installation of a Fiscal Council, Under the Terms of Article 161 of the Brazilian Corporate Law?	Mgmt	None	Against

Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

Voter Rationale: An AGAINST vote for this proposal is warranted because:- By the time this analysis was concluded, the company had not disclosed fiscal council nominees; and- Lack of timely disclosure prevents international institutional shareholders from making an informed voting decision.

<p><i>Voter Rationale: While directors are charged with making decisions regarding executive compensation, an advisory say on pay vote is the best method for all shareholders to provide their views on those decisions. The governance committee should put a say on pay on the AGM agenda as is now common practice in Canada. We expect companies to have policies in place to increase racial diversity on the board. Our minimum expectation is that at least one board member identifies as a member of an underrepresented community. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process.</i></p>

Long-term incentive awards should be used to incentivize long-term performance and should not be allowed to vest within 3 years since the date of grant. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

5	Approve Recapitalization Plan for all Stock to Have One-vote per Share	SH	Against	For
<i>Voter Rationale: One share, one vote is a fundamental element of good corporate governance. Companies should not create shares with impaired or enhanced voting rights.</i>				
6	Adopt Independently Verified Science-Based Greenhouse Gas Emissions Reduction Targets in Line with the Paris Climate Agreement	SH	Against	For
<i>Voter Rationale: We are supportive of requests to enhance disclosure and transparency concerning climate risk so long as the resolution does not directly circumvent management discretion or seek to entirely redefine the company's existing business strategy. To meet the ambition of the Paris Agreement and avoid massive risk to shareholder value, corporations should demonstrate the nexus between their climate aspirations and business strategy via disclosure of credible Paris- or 1.5 degree-aligned emissions reduction targets. Current disclosure does not sufficiently provide investors such information.</i>				
7	Report on Integrating GHG Emissions Reductions Targets into Executive Compensation	SH	Against	For

Disclosure should include all state and local donations including support for 527 organizations and ballot initiatives. In addition, the company should identify key relationships with trade associations that engage in lobbying on the corporation's behalf, as well as describe its policies and processes for giving. We ask that the board provide ultimate oversight for political donations. Enhanced controls over and disclosure of company and trade association lobbying is a growing good practice. Transparency around the company's primary lobbying issues and positions, as well as its key relationships with trade associations that engage on lobbying on its behalf, is advisable.</i></p>

<p><i>Voter Rationale: We appreciate the progress the company has made on decarbonisation plans in recent years. We encourage greater clarity on when the company will set a Science Based Targets, as several different timelines have been given and the process of development and approval of targets can take up to two years. In addition, whilst scope 3 emissions remain just below SBTi and our own 40% threshold we strongly encourage the company to continue work on setting targets to reduce them. For companies without an independent chairman, the board should include at least 50% independent directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The remuneration committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be majority independent and this directors membership could hamper the committees impartiality and effectiveness.</i></p>

	<i>Voter Rationale: We oppose dual class structures with impaired or enhanced voting rights. The company should amend its structure to allow for equal voting rights among shareholders. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board.</i>

Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs.</i>

<i>Voter Rationale: The proponent fails to present a compelling case explaining specifically how the addition of the dissident nominee to the board would lead to value enhancement of the company</i>				
5	Approve Additional Allocation of Income so that Final Dividend per Share Equals to Earnings per Share	SH	Against	Against
<i>Voter Rationale: We note the Company is already proposing a dividend that implies a payout ratio that is higher than that of its peers. We further note that for the fiscal year ended February 28, 2023, the Company returned approximately ¥3.72 billion of capital to shareholders (¥2.00 billion through share repurchases and approximately ¥1.72 billion through dividends), and such amount represents approximately 95.3% of the Company's total net income. Thus, it appears to us the board is taking clear steps to meet its stated goal of a 100% total return ratio over the next three fiscal years.</i>				
6	Articles to Review Rationale of Holding Shares Held for Purposes Other Than Pure Investment and Disclose Review Results	SH	Against	Against
<i>Voter Rationale: The company allocates approximately 3.1 percent of its net assets to cross-shareholdings, which does not appear excessive, and it is unclear how specifically the addition of the language to the articles would have a meaningful impact on the company's behavior concerning its cross-shareholding practice.</i>				
7	Amend Articles to Separate Chairman of the Board and CEO	SH	Against	For
<i>Voter Rationale: Appointing a fully independent chairman creates a balance of power that is more conducive to long-term performance. A board headed by management cannot reasonably provide the best oversight and evaluation of managements performance.</i>

<p><i>Voter Rationale:</i> We recognise the company's commitment to health and safety and the use of third-party contractors to conduct risk-based assessments. However, controversies relating to worker injury and shootings could create reputational damage and lessen its appeal as an employer. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: The company granted the new co-CEO a significant sign-on award, the majority of which are completely time-vesting and set his total compensation at over \$100 million. Furthermore, there is no disclosure of the specific performance targets underlying the annual incentive plan, and the company's regular equity awards remain entirely time-based. We expect companies to disclose performance targets so that shareholders can tie payouts directly to performance and strategy. We also expect long-term incentive plans to utilize performance-based equity as a significant portion of long-term grants.</i></p>

Any increase in the size of awards under the short-term/long-term incentive scheme(s) should be accompanied by a corresponding increase in performance expectations. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process.</i></p>

5	Report on Efforts to Reduce Plastic Use	SH	Against	For
<i>Voter Rationale: We are supportive of this request to enhance disclosure and transparency waste management as it does not directly circumvent management discretion or seek to entirely redefine the company's existing business strategy. Externalities from energy inefficiencies may be material to the company's overall risk profile. Current disclosure does not provide shareholders the requisite information to determine whether the company is effectively addressing such potential risks.</i>				
6	Report on Lobbying Payments and Policy	SH	Against	For
<i>Voter Rationale: Comprehensive, aggregate disclosure on political spending is best practice. Disclosure should include all state and local donations including support for 527 organizations and ballot initiatives. In addition, the company should identify key relationships with trade associations that engage in lobbying on the corporations behalf, as well as describe its policies and processes for giving. We ask that the board provide ultimate oversight for political donations.</i>

<i>Voter Rationale: Companies that have had the same auditor for a period of over 10 years should consider a plan or tender process for bringing in a new auditing firm.</i>				
6	Approve Remuneration Report	Mgmt	For	Against
<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.</i>
