1a	Elect Director John M. Larson	Mgmt	For	For
1b	Elect Director Edward S. Macias	Mgmt	For	Against
<i>Voter Rationale: The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents, which adversely impacts shareholder rights.</i>				
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<i>Voter Rationale: Variable remuneration should not contain a significant overlap of metrics. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant.</i>

Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights.

The remuneration committee should not allow vesting of incentive awards for substantially below median performance. However, we note the company has recently increased target vesting to the 55th percentile. Additionally, the plan is sufficiently broad-based and is an integral part of the company's recruitment and retention strategy.

3	Ratify KPMG LLP as Auditors	Mgmt	For	For
---	-----------------------------	------	-----	-----

Voter Rationale: Companies that have had the same auditor for a long period of time should consider a plan or tender process for bringing in a new auditing firm, ideally every 10 years.

4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
---	--	------	-----	-----

Voter Rationale: While there are several elements of compensation that we would like to see improve, the company has made changes to the executive compensation program that we find positive, including increasing the TSR target under the LTIP to the 55th percentile and adding additional operational metrics in addition to the existing TSR metric. We encourage the company to disclose more information on the annual bonus assessment, especially regarding the strategic objectives, and to eliminate accelerated vesting on a change in control.

1.1	Elect Director Marc E. Becker	Mgmt	For	Withhold
<i>Voter Rationale: The remuneration committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The nomination committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board's failure to remove, or subject to a sunset requirement, the pop-up supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest.</i>

<i>Voter Rationale: The remuneration committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness.</i>				
1.4	Elect Director Sigal Zarmi	Mgmt	For	Withhold
<i>Voter Rationale: The lack of a robust anti-pledging policy is concerning and raises questions about audit committee effectiveness in carrying out its risk oversight function. We encourage the committee to adopt a policy ideally prohibiting or severely restricting the pledging of company shares by executives. Company fails to meet our Net Zero Model expectations. In particular, we note the company has failed to set reduction targets. Climate change presents an ongoing and serious long-term risk that can impact shareholder value. Companies should improve their public disclosure and strategy setting in relation to climate change.</i>

<i>Voter Rationale: On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice.</i>

Voter Rationale: Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.

Voter Rationale: Severance payments should not exceed two years pay. Larger severance packages should be subject to a separate shareholder approval. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Overall, with the balance in 3-yr pay-for-performance, we are supportive of this plan at this time.

3	Approve Remuneration Report	Mgmt	For	Against
<i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Substantial pay-outs under incentive schemes should only be available for superior performance. Reaching threshold targets may warrant vesting of only a small proportion of incentive awards. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.</i>

<i>Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Companies that received high levels of dissent on remuneration-related proposals should engage with their key shareholders to understand the rationale for opposition and explain in the next annual report how the company intends to address shareholder concerns. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. A larger percentage of the equity awards should be tied to performance conditions. At least 50% is a minimum good practice.</i>

<i>Voter Rationale: We are supportive of requests to enhance disclosure and transparency concerning climate risk so long as the resolution does not directly circumvent management discretion or seek to entirely redefine the company's existing business strategy. To meet the ambition of the Paris Agreement and avoid massive risk to shareholder value, corporations should demonstrate the nexus between their climate aspirations and business strategy via disclosure of credible Paris- or 1.5 degree-aligned emissions reduction targets. <p><i>Voter Rationale: Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). <i>Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. <i>Voter Rationale: This is an evolving issue under review by US regulators, and one which the company is monitoring closely. New FCC regulations may resolve concerns, but the company should ensure that its existing policies are strong, practices are clear, and disclosure is excellent in order to avoid further rulemaking.</i>

<p><i>Voter Rationale: Changes in company bylaws or articles of incorporation should not erode shareholders' rights and should be subject to shareholder approval. Specifically, the board failed to remove, or subject to a sunset requirement, the supermajority vote requirement to enact certain changes to the governing documents and the classified board, each of which adversely impacts shareholder rights. Companies should establish and disclose a policy on hedging of company stock by executives. Hedging activity by executives should be prohibited as it potentially severs management alignment with shareholder interest. <p><i>Voter Rationale: The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board. For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent from the company and majority independent from its major shareholder(s). The remuneration committee should be fully independent from the company and majority independent from its major shareholder(s). In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i></p>

Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

Voter Rationale: For widely held companies, the board should include at least 50% independent non-executive directors to ensure appropriate balance of independence and objectivity. We voted against because we do not consider this director independent and yet sits on the audit committee. The audit committee should be fully independent from the company and majority independent from its major shareholder(s) and this directors membership could hamper the committees impartiality and effectiveness. Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.

<p><i>Voter Rationale: We voted against because we do not consider this director independent and yet sits on the audit committee. The remuneration committee should be fully independent from the company and majority independent from its major shareholder(s) and this directors membership could hamper the committees impartiality and effectiveness. In recent years, this is not the first time that we have been unable to support a pay related proposal at the company. Due to ongoing concerns regarding decisions taken by the remuneration committee chair, we are not inclined to support their re-election to the board. Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 40% of the board. Given that the number of female directors has increased since the last AGM, we will keep this matter under review.</i></p>

The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it. <i>Voter Rationale: Share options should not be granted to non-executive directors as this may compromise their independence and ability to hold management accountable. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should be used to incentivize long-term performance and should not be allowed to vest within 3 years since the date of grant.</i>

The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. <p><i>Voter Rationale: This plan could lead to excessive dilution. On early termination, all share-based awards should be time pro-rated and tested for performance, including in the event of a change of control. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Long-term incentive awards should be used to incentivize long-term performance and should not be allowed to vest within 3 years since the date of grant. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>				
4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against
<p><i>Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. We have concerns regarding the timing and quantum of the equity grants to the CEO. We would prefer to see the CEO and other executives paid through the company's long-term incentive plan, as that appears adequate to incentivize management. Further, the large upcoming grant to the CEO underscores our continued concerns regarding the lack of concrete succession planning, which is important given the company's business strategy.</i></p>

Although we support greater disclosure around the companies climate strategy we do note concern on shareholders being required to cast votes on the company climate strategy. The concern is that of a corporate governance nature, board members are elected to the board to oversee the management and execution of the companies strategy. Having a shareholder vote on the strategy removes a level of accountability of the board members. ABSTENTION of voting is warranted.</i></p>

Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Long-term incentive awards should be used to incentivise long-term performance and should not be allowed to vest within 3 years since the date of grant. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i></p>

The nomination committee should be independent and this director's membership could hamper the committee's impartiality and effectiveness. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. <p><i>Voter Rationale: A vote AGAINST this proposal is warranted. The proposal language may result in a bylaw amendment that is both overly restrictive of the board's ability to amend the bylaws, and not necessarily in the interest of shareholders. Further, there does not appear to have been any problematic bylaw amendment unilaterally adopted by the board that would suggest that support for this proposal is warranted.</i></p>				
8	Submit Severance Agreement (Change-in-Control) to Shareholder Vote	SH	Against	Against
<p><i>Voter Rationale: The board has recently adopted a severance policy stating the board will not enter into any agreement that provides for severance payments to an executive officer in an amount that exceeds 2.99 times the sum of the executive officer's base salary plus target annual bonus, without seeking shareholder advisory or other approval of such agreement. This policy provides adequate protections for shareholders as it pertains to potentially excessive cash severance payments and no significant concerns are identified with respect to the company's severance arrangements nor broad-based equity award treatment.</i></p>

The nomination committee should be independent and this directors membership could hamper the committees impartiality and effectiveness. Directors are expected to hold only a small number of directorships and ensure they have sufficient time and energy to discharge their role properly, particularly during unexpected company situations requiring substantial amounts of time. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.

	<i>Voter Rationale: The nominee serves as Nominating Committee Chair and has long tenure. Long tenured directors could lack independence from the company and we expect key committee Chairs to be independent. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 27% of the board. The average board tenure at the company significantly exceeds the market average, raising concerns regarding board refreshment and succession planning. However, at this time, we are supportive of this nominee provided their recent appointment.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For
	<i>Voter Rationale: All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it. However, on balance, the relative pay-for-performance alignment is balanced over the prior three fiscal years.</i>

1	Re-Ratify Remuneration of Company's Management for April 2022 to April 2023 Period	Mgmt	For	Against
<i>Voter Rationale: The company has failed to provide a compelling rationale for the 63.69- percent increase proposed for the 2022 global compensation cap. Furthermore, this is the fourth consecutive year in which the company asks shareholders to amend the previously-approved global cap, raising concerns regarding the transparency of the company's remuneration practices and of the information provided to shareholders at the annual meetings, when the such caps are approved</i>

5	Elect Directors	Mgmt	For	Against
<i>Voter Rationale: The board should submit directors for re-election individually, rather than as a single slate and ensure that there is sufficient level of independence on the board. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5 pct of the board. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). Nominees who also serve as executive officers at publicly listed companies are expected to hold no more than one external directorship to ensure they have sufficient time and energy to discharge their roles properly, particularly during unexpected company situations requiring substantial amounts of time.</i>

<p><i>Voter Rationale: Incentive awards to executives should be clearly disclosed and include robust and stretching performance targets to reward strong performance and drive shareholder value over a sufficiently long period of time. Significant salary increases should be linked to material changes in the business or in the role and responsibilities of executive directors. All exceptional awards should be clearly linked to performance and demonstrate shareholder value creation in addition to and above that expected of directors as a normal part of their jobs. The remuneration committee should not allow vesting of incentive awards for substantially below median performance. Companies should consider extending vesting periods for long-term incentive plans to 5 years or longer or as a minimum introduce an additional holding or deferral period.</i></p>

	<i>Voter Rationale: The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The Company should put in place a policy to increase gender diversity on the board. In developing markets, our minimum expectation is that women should comprise at least 13.5% of the board. Given the recent updates to the board, we will keep this matter under review. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. In developed markets, our minimum expectation is that women should comprise at least 30% of the board. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process. The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. The board should submit directors for re-election individually, rather than as a single slate to enable shareholders to hold directors individually accountable for their performance.</i>

This plan could lead to excessive dilution. The company should put in place a procedure which would enable it, should it identify any facts of manipulation of reported indicators or other bad faith actions on the part of any of its executive directors and other key managers which were detrimental to the long-term interests of its shareholders, to ensure that any funds wrongfully obtained in such manner are repaid to it.</i>

5	Elect Directors for 2023-2026 Term	Mgmt	For	Against
<p><i>Voter Rationale: For controlled companies, the board should include at least 33% independent non-executive directors to ensure appropriate balance of independence and objectivity. The audit committee should be fully independent and this director's membership could hamper the committee's impartiality and effectiveness. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process. The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate. The Company should put in place a policy to increase gender diversity on the board. In developed markets, our minimum expectation is that women should comprise at least 40% of the board. Given that the number of female directors has increased since the last AGM, we will keep this matter under review. The board should submit directors for re-election individually, rather than as a single slate to enable shareholders to hold directors individually accountable for their performance.</i></p>

1	Accept Financial Statements and Statutory Reports for Fiscal Year Ended Dec. 31, 2022	Mgmt	For	For

The company should move towards a three-committee structure (audit, remuneration and nomination) in line with regional best practice, with independent board committees that report annually on their activities. We hold this nominee responsible for the lack of key committee(s). The board should appoint a Lead Independent Director to establish appropriate checks and balances on the Board, support the Chairman, ensure orderly succession process for the Chairman, and act as a point of contact for shareholders, non-executive directors and senior executives where normal channels of communication through the board Chairman are considered inappropriate.</i>

We are holding this director accountable. The nominee serves as Nominating Committee Chair and has long tenure. Long tenured directors could lack independence from the company and we expect key committee Chairs to be independent. In the context of increasingly complex international accounting standards, the audit committee benefits from members who have a good and recent understanding of the accounting rules and of the audit process.
